NPGL is pioneering the way for Naturally Plus at the global scale

## Where It All Started

The first product introduced by Naturally Plus was SUPER LUTEIN, which began to be sold in Japan during March 1999. People quickly noticed its effectiveness, and it soon became known as the **“miracle supplement.”** Sales skyrocketed and we celebrated the grand opening of the Taiwan Salon, our first overseas branch, only 5 years later in 2004.

Japan Salon

Hong Kong Salon

## Product Lineup

**2** of our specially designed products can now be purchased by people living in over 150 countries via our online boutique\*:

**SUPER LUTEIN MIRTO+**  
**SUPER LUTEIN**

Not only can products be bought in those countries, people can sign up easily and become part of your Naturally Plus family.

**You can grow your business worldwide!**

## Going Global in a Big Way... Sales Growing Overseas

The opening of salons overseas has continued at an amazing pace:

- 2004 Taiwan Salon**
- 2007 Hong Kong Salon**
- 2008 Singapore Salon**
- 2009 Malaysia Salon**
- 2010 Korea Salon**
- 2011 Indonesia Salon**
- 2013 Thailand Salon**
- 2014 USA Office**
- 2015 Vietnam Salon**
- 2015 Philippine Salon**
- 2015 Brunei Salon**

In 2012, we celebrated the opening of Naturally Plus Global (NPGL), a truly international service that allows members to sponsor people living almost anywhere.

\* Please refer to the global website for other products available in your region.

Think about it...  
...regardless of where  
you are, you can sponsor  
family, friends and  
associates living  
anywhere in the world!

## Membership Registration — We've Gone Cyber!

As the company expands globally, we've realized the importance of making sure that business can be done anytime, anywhere. Every person you meet is a potential partner, so we've created a cyberspace portal that gives members the ability to sponsor people and order products anyplace there's Internet.

**Best of all, it's free for everyone to use!**

## Develop and Prosper Together

**What better business could there be?**

Just like our products, the Naturally Plus opportunity is specially designed to show results quickly. People who use products and participate in the business diligently can find themselves being rewarded with good health and personal wealth.

Even more important is that the system promotes development and prosperity not as an individual, but as a group; sharing achievements, happiness and smiles with friends and colleagues along the way.

**Now that's a WIN - WIN situation!**

## SUPER LUTEIN MIRTO+

With an impressive 30 million bottles sold since its launch, the Naturally Plus all-time bestseller SUPER LUTEIN boasts a golden formula well-loved by consumers. Combined with renowned antioxidant ingredient Mirtogenol®, lutein supplement specialist Naturally Plus takes this unmatched formula to greater heights with the launch of SUPER LUTEIN MIRTOPLUS. The people of today face increasingly demanding challenges in their everyday lives. Here is a product that lets you see the world with clarity and embrace every day in a positive light.

---

## SUPER LUTEIN

SUPER LUTEIN is a broad spectrum multi carotenoid nutritional supplement specially designed for supporting eye and overall health. The major advantage of SUPER LUTEIN over any other product containing Lutein is the combination of 6 carotenoids with DHA in a proprietary formula that also includes anthocyanin extracted from various berries that help you maintain a nutritionally healthy lifestyle. Over the years, it has been well-loved by customers and has grown into a brand representative of Naturally Plus.

Made in Japan...  
Manufacturing Standards  
Equivalent to Pharmaceutical  
Products

SUPER LUTEIN MIRTOPLUS and SUPER LUTEIN are products of Japanese origin, carefully conceived, designed and produced by skillful scientific artisans: their ingredients prepared infusing the Japanese traditions of “monotsukuri” (i.e., craftsmanship) and “wa” (i.e., harmony).

Strict quality control programs are enforced at all raw material growing facilities, extraction and processing plants, and in final bottling and packaging processes. As a result, we ensure a level of quality and safety equivalent to that utilized for pharmaceutical products.

Materials procurement and production are all conducted in facilities and factories that conform to **ISO22000** standards.

The company has also received **ISO9001 certification for conformity to international quality management system standards.**
