PURIFICAR BB

FIBER BLEND WITH CALCIUM
FOOD SUPPLEMENT LIQUID

It is essential to maintain a healthy and active body. However, the human body cannot produce nutrients such as fiber necessary for a healthy lifestyle. In recent years, the daily consumption of other food groups like fish, meat, fruits, and vegetables do not usually meet the national Recommended Energy and Nutrient Intake (RENI) levels, especially for fiber based on FNRI data. This imbalanced dietary pattern and nutritional deficiency may cause many health problems. PURIFICAR BB, a product made in Taiwan, was launched in the Philippines to give Filipinos a chance to live a healthy life. This product is a liquid food supplement that provides sufficient edible fiber and calcium sufficient for the whole day.

Why Purificar BB?

Lets you take it without worries

To ensure perfect quality of Purificar BB, we have selected a biotechnology factory which is one of the few in Taiwan's science park with pharmaceutical facilities. The one hundred thousand level dust-free air conditioning filtration system and the medical level purified water manufacturing system with the function of dual bacteria and impurities filtration are adopted in the production control area. The factory has passed the certification of ISO 22000 quality management system and HACCP.

One supplement that satisfies three needs

Purificar BB contains various kinds of dietary fiber, highly soluble calcium lactate, casein phosphopeptides (CPP), ume plum concentrate, brown sugar and other health ingredients, which help you supplement dietary fiber and calcium that you lack in your diet. Along with natural health ingredients, Purificar BB adjusts your physical functions and maintains health. Purificar BB is a product of innovative revolution, alleviates your body's burdens, supplements calcium in your body and easily adjusts your physical functions.

Benefits of Purificar BB to your health

Eating a balanced diet is important to health. Diets high in calories and fats are known to increase the risk of atherosclerosis leading to cardiovascular diseases. Diets low in fiber and complex carbohydrates are known to increase the risk of cancer, diabetes and gastrointestinal diseases. Following the nutrition guidelines of low fat and low salt and increased fiber and Calcium diet helps decrease the risks of major non-communicable disease, namely cardiovascular diseases, diabetes mellitus and cancer.

Selection of Finest Ingredients

Purificar BB contains various kinds of dietary fiber, highly soluble calcium lactate, casein phosphopeptides (CPP), ume plum concentrate, brown sugar and other health ingredients

Water S-FIBER stands for Satisfactory Fiber. It is a combination of Five (5) kinds dietary fiber, and is designed to satisfy the body's need for dietary fiber in terms of both quantity and quality. Five (5) different kinds of dietary fibers are the following;

Indigestible maltodextrin (Fibersol-2) / From corn

It produced by refining corn starch. Highly resistant to heat and acidity, it is used in various foods, including health supplements and supports a healthy digestive system.

Gum Arabic / From the Gum Arabic Tree or Acacia Senegal

It is obtained from the dried sap of the Gum Arabic Tree grown in areas such as the west coast of Africa, Nigeria and Sudan. It has superior emulsifying properties and various applications in the manufacture of food.

Psyllium Seed Husk powder /From psyllium of the plant genus Plantago

Rich in dietary fiber, the husks of psyllium seeds are collected and finely crushed for use. In India, where psyllium is grown, people have been known to consume psyllium seed husks for health purposes. Our manufacturer in Gujarat, India, is the world's leading authority on psyllium seed husk production. To ensure consistent high quality, harvesting is done by contract farmers and the production process is regulated under the most stringent organic standards to ensure that the raw material is safe, pure, and pollution-free.

Oat Fiber /From oats

Oat husks are rich in dietary fiber, and are powdered for use in foods such as bread and cereal. The highly nutritious oat fiber in S-FIBER is extracted from carefully selected oat husks by a reputable American grain manufacturer without using chemicals. The extracted organic cellulose has a wide variety of healthy properties: low in sweetness and calories, odor-free, and has high stability, etc.

Inulin / From chicory roots

Processed by renowned manufacturers in the Netherlands, inulin is obtained from chicory roots. Chicory juice is extracted, purified, demineralized, decolorized, and deodorized. A process is also applied to remove the bitter taste. After spray-drying, inulin is obtained. Inulin promotes the growth of good intestinal bacteria, such as bifidobacteria.

Ume plum concentrate is rich in various minerals and trace elements which facilitate metabolism. After strictly selected green plums are peeled and stoned, green plum juice is extracted from the fruit. After the filtration process, the juice is stewed in a traditional way to preserve more of its active elements to help maintain the function of your digestive tract, improve your physical strength and make you look great.

Frequently Asked Questions

Q Purificar BB tastes sour, so is it irritating to my stomach? Can I drink it when I am fast or hungry?

A Purificar BB contains natural health ingredients, so it does not irritate your stomach, and you can drink it even when you are fast or hungry. However, when your stomach suffers acute inflammation or if your stomach is more sensitive, it is suggested that you drink it after meal or dilute it with 240cc of water.

Q Can I take medicine with Purificar BB?

A It is suggested that nutritional supplements be taken 0.5 to 1 hour before or after you take medicine to avoid any interference that affects your body.

Q Do I suffer diarrhea after taking Purificar BB?

A The product contains only health ingredients and no diarrhea medicine.

Q Brown sugar is added to Purificar BB, so can diabetics drink it?

A Brown sugar in Purificar BB is to make it more palatable. In addition, brown sugar contains various minerals and trace elements which are good for health. There is very tiny amount of sugar in each pack of Purificar BB, only 2.3 grams. Its formula contains five grams of dietary fiber, so it is excellent health food with high fiber and low glycemic index (GI). Diabetics and people who have to control weight can drink it without any worry.

Q Purificar BB tastes sour and sweet. Is it high in calories?

A There are only 24 kilocalories in each pack of Purificar BB. It is a concentrated beverage with low calories, so it does not cause any burden on people who have to control their weight.

Q Can vegetarians drink Purificar BB?

A In addition to CPP extracted from milk, Purificar BB does not contain other animal ingredients, so lacto-vegetarians can take it.

Q Purificar BB contains CPP extracted from milk, so can people with lactose intolerance take it?

A Purificar BB does not contain lactose, and it contains a variety of excellent soluble dietary fiber which helps increase the amount of excrement. People with lactose intolerance can take it to supplement calcium.
